Simple Food Ordering System Documentation

Introduction

The documentation for the Food Ordering System built with Django and Bootstrap. This system allows users to view a menu, add items to their cart, and place orders.

Tools Used:
- Python (3.12)
- Django
- Bootstrap

Project Structure:

```
food_ordering/
|-- orders/
|   |-- templates/
|   |   |-- orders/
|   |       |-- menu.html
|   |       |-- cart.html
|   |       |-- orders.html
|-- manage.py
|-- food_ordering/
|   |-- settings.py
|   |-- urls.py
```

Installation and Running:

1. Clone the repository:
   git clone https://github.com/sabinmhx/food-order-django

2. Apply database migrations:
   python manage.py makemigrations
   python manage.py migrate

3. Run the development server:
   python manage.py runserver
   Access the application at http://127.0.0.1:8000/.
